Portfolio: tejasrajemax.github.io/My-Portfolio

Summary

Computer Science & Engineering student with a strong foundation in **Core Java, Object-Oriented Programming, Data Structures & Algorithms, Java Collections, Exception Handling, and SQL**. Experienced in developing Java-based applications and currently building a backend-oriented **Library Management System using Spring Boot, REST APIs, Spring Data JPA, and MySQL**. Seeking an entry-level **Java Developer / Backend Developer** role to apply Java fundamentals and backend development skills in real-world applications.

Technical Skills

Programming: Java, Python, C

Core Java: OOP, Collections Framework, Exception Handling, File I/O

Backend Development: Spring Boot, REST APIs, Spring Data JPA, JDBC

Database: MySQL, MongoDB, SQL

Web Technologies: HTML, CSS, JavaScript

Tools: Git, GitHub, Maven, Postman, VS Code

CS Fundamentals: Data Structures & Algorithms, DBMS, Computer Networks, Object-Oriented Programming

Projects

Library Management System | *Java, Spring Boot, REST API, Spring Data JPA, MySQL*

Ongoing – 2026

Developing a backend-based Library Management System using **Java and Spring Boot** with a RESTful API architecture.

- Implementing APIs for **student, librarian, and book management**, including book addition, search, issue, return, and transaction operations.
- Designing relational database entities and persistence using **MySQL, JPA, and Spring Data JPA repositories**.
- Structuring the application using **Controller, Service, Repository, and Entity layers** to separate API handling, business logic, and database operations.
- Testing REST endpoints using **Postman** and verifying persistent data and API responses through MySQL.

Employee & Task Tracking System | *Core Java, OOP, Collections, DSA*

Ongoing – 2026

Developing an employee and task management application to strengthen practical understanding of **Core Java and Object-Oriented Programming**.

- Applying OOP concepts, Java Collections, and data structures to manage employees, tasks, assignments, and application workflows.
- Designing business logic for connecting employees with assigned tasks and tracking task-related information.
- Applying exception handling and modular Java design while incrementally expanding system functionality.

Console Based Banking System | *Java, OOP, File I/O, Collections, Exception Handling*

2026

Developed a console-based banking application supporting **Savings and Current account management** with user authentication.

- Implemented account creation, login, deposit, withdrawal, fund transfer, balance inquiry, and transaction history.
- Used **Java File I/O** for persistent customer and transaction data storage.
- Implemented automatic account number and passkey generation with exception handling.

Book & Movie Recommendation System | *Python, Flask, HTML, CSS, JavaScript*

2025

Developed a recommendation application using similarity-based recommendation techniques for books and movies.

- Built a Flask backend with a web-based frontend for searching and discovering recommended content.
- Processed dataset information and generated recommendations based on similarity between items.

Experience

Cybersecurity Virtual Internship — VOIS & Edunet Foundation

Dec 2025 – Jan 2026

- Studied cybersecurity fundamentals including threat detection, risk assessment, and security awareness.
- Applied cybersecurity concepts through practical exercises involving common cyber threats and security monitoring.
- Explored applications of AI in cybersecurity and threat monitoring.

Education

Shobhit Institute of Engineering & Technology,

Bachelor of Technology in Computer Science & Engineering (CGPA: 8.3)

Relevant Coursework: Data Structures & Algorithms, Database Management, Computer Networks, Web Development, Computer Architecture, Internet Technology

Meerut, Uttar Pradesh

Oct 2023 – Jun 2027

Certifications & Achievements

- | | |
|---|--------------------------------|
| • Java Programming with AI | Unstop July 2026 |
| • Java Intermediate with AI | Unstop July 2026 |
| • Java Training and Assessment Badge | myLearn Oracle June 2026 |
| • Java Foundation Badge | myLearn Oracle December 2025 |
| • Python Foundation | SWAYAM Portal June 2024 |

Soft Skills

Communication | Problem Solving | Leadership | Adaptability | Time Management
